Healthcare Like No Other...Not Sick-Care

The Fraum Center for Restorative Health is dedicated to redefining what health care should be – **healthcare, not sick-care**. Now, more than ever due to recent world health concerns, we continue to lead by saving lives with cutting-edge alternative approaches to diseases and ailments.

Our mission is to help as many people as possible avoid unnecessary surgery, medication and gain health strides using the natural therapies available here at Fraum Center For Restorative Health.

Our practice helps people express their maximum vitality, educates patients on how their body can heal naturally, and teaches them how to build and maintain optimum health.

Our promise is to deliver personalized, goal-oriented treatment designed to relieve pain and restore our patients function while at the same time giving them a wonderful experience with excellent service and personalized care.

If the last two years have taught us anything, it's that **health should be our number one priority**. With a new year upon us, 2022 at the Fraum Center for Restorative Health, we are doubling down on our commitment to help our community and invite you to **reverse your chronic conditions and eliminate your pain with our life-saving, cutting-edge treatments**.

If you or someone you love has been told prescription medications and/or surgery are the only options to treat your condition, **we urge you to contact us today**. Our expert staff has the natural tools that can reverse your condition and ultimately save your life.

Continued: Healthcare Like No Other...Not Sick-Care

Services from our Center include:

Restorative Medicine Beyond Stem Cells™ including Human Cellular Tissue Products (HCTPs) have been used all over the world for over 20 years by celebrities and numerous professional athletes to provide noninvasive treatment for joint injuries such as knee cartilage repair.

After years of research and undergoing a certification from the ISSCA, Dr. Brad Fraum, DC and Dr. Heather Hinshelwood, MD introduced this treatment to the Lowcountry in 2018 and have since worked with thousands of patients locally, nationally and internationally.

Our IV Nutrition Vitamin Drips enhance your energy, improve your overall mood, and help boost your immune system function. IV therapy can help in the prevention of health conditions caused by chemical/physical/emotional stressors, poor nutrition, and dehydration.

Neuropathy: treating the cause, not the symptoms. Neuropathy occurs because the blood vessels that supply the nerves in the legs, feet, and hands become damaged. Our gold standard of care treats all of the causes of neuropathy to reduce symptoms and reverse damage naturally, without drugs or surgery.

Chiropractic: developed over 100 years ago, chiropractic care is a conservative, drug-free, surgery-free approach to optimal health and is based on the premise that the relationship between the body's structure and function is a significant factor in your health.

Spinal Decompression has been shown effective in relieving the pain related to bulging and herniated discs, degenerative disc disease, sciatica, and even relapse or failed back surgery. Since its introduction, clinical studies have shown an impressive success rate in treating lumbar disc related problems.

Optimal Health and well-being to all in 2022 and into the future,

Dr. Brad E. Fraum D.C.

Team Fraum 2022

**"The longer I live
the more beautiful
life becomes."**
